# **Pushman's** Oriental Rugs

Comparisons will prove they are priced low

Before you buy Oriental Rugslook around. Go into every worth while store in town. Compare the qualities and prices with rugs at Pushman's. For only by making such comparisons can you realize how true it is that Pushman's values cannot be beaten.

And it makes no difference how much or how little you wish to spend. Whether it is only a few dollars or many thousands, the most complete selections will invariably be found here.

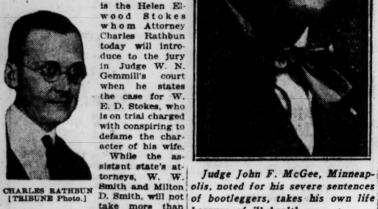

We have always been far more concerned with the dependable quality and character of the rugs we handle than with their price. Yet, our long standing and close association with Oriental rug weavers and dealers gives us the opportunity of securing many fine importations at less than prevailing

And instead of marking them at the prices we could get-considering what other stores charge for rugs of equal size and quality—we give you the benefit of any savings we make. Which is another reason why Pushman's values cannot be beaten.

Franc's Drop Aids Herriot Foes.

The franc's sharp drop gives the oposition a formidable weapon at the moment it is most needed—when they are launching their campaign to get their principal leader. M. Millerand, returned to parliament at the April 5 by-election in Paris. The attack will be based on figures showing the franc has steadily declined since Premier Herriot took office, and this will be blamed on the government's alleged socialistic leanings and so-called "confiscatory" legislation against corporate earnings.

Avoid Starchy Foods if you are Overweight The principal fat producing elements in foods are starch, sugars and fats. If you are overweight avoid them. One of our most important foods is bread. In breads of all kinds and particularly white bread, starch is the principal substance which turns into fat—so say leading health authorities. Jack Sprat combats fat—so here at last is a palatable bread, delightful to eat, yet low in starch and rich in nourishment—protein, vitamins and mineral salts as nature provides them. Jack Sprat Bread is made under a secret formula known to no other baker and from a secret formula known to no other baker and from a special flour. One flour ingredient from which most starch is removed, by a slow and costly process, costs 900% more than white flour. So no other bread is like Jack Sprat. So marvelous are results many ask us, "Is there medicine or drugs in Jack Sprat Bread?" To all we say: "Jack Sprat is absolutely pure." It is the secret formula and the special flour that aid to such magical results.

Look for the Circular of Directions Into each carton of Jack Sprat Bread goes a circular of directions. There are also other helpful suggestions. Read these carefully, then Jack Sprat can give you quickest results. So eat 3 loaves of Jack Sprat Bread each week—eat it in place of all other breads, pastry, potatoes, and other starchy and fattening foods—then watch your weight come down. If they say no, that's a decision, whatever its be up to the promoters of the plan to give city the benefits which can result from it. No advocate of referendum could consistently ject to the decision of this question of public ieve in it. There never will be a riper opporunity for it. The question is easily understandde. It is of intimate relation to the daily lives of the people. They know what they have and we not in transportation. They know what ey need and want.

They may be tired of the obstructive tactics of ection, progress, comfort, convenience, and metlitan expansion. They may want action, buildnew lines, subways, more cars.

The aldermen cannot adopt the plan. They can y pass it on to the voters. They can prevent opular decision on a matter of public policy such import, but they have nothing else to nit. For the present it is a decision on the er plan or no decision at all.

#### AIR SANITATION.

The human population of Chicago consumes ose to 90,000,000 pounds of air a day. Other elr consumers such as horses and automobiles ncrease that air consumption tonnage.

Human beings are heavy air consumers. Its baygen enters their blood. It combines chemically with materials in the blood stream and in the cell lasms. If you shut the dampers of a furnace you close the carburetor of a motor car, if you shut off air to the lungs, it all amounts to the ome thing. The fire burns low. It goes out. The "go" of the furnace, the motor car, and the hu man body is lost.

In Chicago we dump about 800 tons of filth and impurities into the air every day. Most of these service. If the waste were cut off, the pumping 1.400,000 pounds of air dirt is coal smoke and gas. such of it is automobile exhaust. A great amount of impurity not included in the 800 tons is from our own lungs. The air sewage dumped daily into he air that we breathe is all in all more than the pare air that we consume. Chicago's air reservoir s a mixture of both.

There is reason for Scrutator's saving that the supply of modern cities has become a real ern. Our naïve method of dumping coal soo and waste, in fact all refuse that a little breeze carry, into the air is comparable to throwing garbage out on State street and emptying the y's sewage at Clarendon beach. Air sanitation about the most important public work that Chicago can accomplish. Smoke control would be good beginning.

If the enthusiastic air service by its attacks on the navy produced a congressional state of mind which began to junk the battleships the result would be very bad. We can junk battleships when the test of war has proved that their day s done. So long as there are battleships under other flage there should be battleships under the American flag, for fear that when they are needed they will not be disposed of by airplanes. Then the nation that guessed they would be would be out of luck.

If the enthusiastic air service gets a good Amercan air service without junking anything else so far found essential to defense, then it will have done the country good even if the navy has been made almost incoherently mad.

If the American air service has to put a nav out of business let's not make it the American

#### MINDED.

PHYSICIAN from Iowa sends us a newspaper clipping which tells the tragic story of a feeble minded girl. This girl is now 24 years old. Her grandmother is an inmate of an asylum for the insane. Her aunt is in the state reformatory for women. Her uncle has been an incipale of the state nsane asylum. The girl was born in an the estimated mentality of a child 10 years of age. The girl is an inmate of

All of these facts were developed when the girl was on the witness stand in a criminal suit prosecuted by the state against a former official who was charged with contributing to the girl's sexual delinquency. Incidentally, court permitted the attorney for the defense to grill this girl on the witness

In all probability the girl was a sexual delinquent and more than one person conliable, trustworthy and humane method ployed and still kept within the spirit of the law and probably within its let-

#### WHEN SPEEDING IS BAD.

Chicago, Feb. 11 .- I wish to voice a fe words in regard to Chief of Police Collins' opinion on how to curb the acc dents caused by motor vehicles. The speed law should be taken into consideration. Some cops have the idea of arresting every one who goes ever twenty miles per hour regardless a where he is driving. There is not much danger in going twenty miles per hour on a boulevard as there is in passing a school, while in session, at ter miles per hour. If some of the police would spend more time on some of the side streets it could help immensely in reducing accidents. Why doesn't Collins look into the problem like Cles land has done? Instead of reducing the speed they have speeded up traffic and since that time fewer accidents have or curred than before. Speeders that combefore judges should be given consider tion as to where the offense was com ted, and that is what a great number them are getting. That is one of the reasons why fewer motorists are made pay the penalty.

HE LIKES MENCKEN. Chicago, Feb. 12.-Your criticism H. L. Mencken interests me greatly, Mr Lane. To answer your question: In my opinion Mencken is one of the stands bearers of America. #### Plaits at the Front Give Many of the Spring Coats A Novel Swing

ONE of the prominent ideas expressed in the newer Coats as well as in frocks and suits, is this gathering of fullness at the front leaving the back slender and flat. This is attained in the Coat pictured above by the kit fox bordered box plaits. Its square-cut, tailored collar and brilliant print lining are new, too. The other model of tan jeweltone uses natural lynx interestingly; the embroidery in Chinese design is in tan, biscuit and brown tones.

#### Women's Winter Coats Reduced to \$22.50, \$35 Up

Every winter Coat in the section has been greatly lowered in price for this Clearance—the season's most attractive fabrics, furs and colors are represented in all sizes, though not every size in each style. Women's Coats, Sixth Floor, North, State.

#### There Is Logic In the Success Of Our February Shoe Sale

THIS is the third week in one of the busiest Februaries the Shoe Section has had. Year after year sees many of the same patrons coming here for a season's shoe supply. And with them come hundreds who never before had benefited by the service of the Shoe Section.

With a reputation for carrying shoes of only the highest character, with the many regular Field brands made famous during the years included, with nothing reserved from reduction in price, small wonder that families findthis Sale a great boon and make the most of it.

#### Every Pair Reduced for Men, Women, Children

Replenishments arrive right along. Stocks are kept complete. The advantages are so obvious that many a customer who comes to buy a single pair orders several. Main Floor—Fourth Floor and Basement.

# "only a sore throat"

DEATH NOTICES

# Grippe-Influenzamany dangerous diseases

T INLESS you take care of a sore throat in its early stages, you may pay for your neglect with weeks of misery.

Often a sore throat is the forerunner of a critical illness - grippe, influenza, pneumonia, diphtheria. Oftener still, it causes just a wretched, low state of health that drags on indefinitely.

The soreness and inflammation in the throat are a warning to you that germs are at work sending their poisons throughout your whole system.

Don't lose a minute in beginning to fight them. Give your raw, red throat vigorous antiseptic treatment at once—and make your treatment continuous, not just a gargle or spray night and morning.

Formamint is the only throat antiseptic of proven germicidal power with which you can keep up your fight against germs all day - in your office, on the street car, any. where you happen to be.

Get a bottle of Formamint, and every half hour or hour dissolve one of the pleasant-tasting tab-

As it slowly dissolves, it bathes every fold/and crevice of the throat tissues with one of the most

SCIENTIFICALLY usud ommended in standard medical text books - endorsed by over

powerful germicidal agents known to science, in a form which is perfectly safe.

This is the most modern, most scientific way to treat sore throat.

To prevent sore throat, to protect yourself when exposed to contagious disease—during epi-demics, in crowds, in dusty streets—take a Formamint tablet about every two hours.

Wherever you are, you can always renew the germicidal action with another tablet. And this uninterrupted, all-

casional action of a gargle cannot do.

#### Irish Envoy Says Porter Plan Had No Chance.

BY RAYMOND FENDRICK. [Chicago Tibune Foreign News Service.] (Copyright: 1925; By The Chicago Tribune.) GENEVA, Feb. 15 .- "I saw Lord Cecil hold up his hand in horror at the

idea that Great Britain was deeply involved in opium trade. I made an ex-haustive examination of the British Sergeant Charles Ellis and Corp. haustive examination of the British colonial office list of 1924 and other official reports and found the British colopies in the east receive an annual income of more than \$60,000,000 from epium, and this income is continually increasing," James MacWhite, Irish Free State representative in the league f nations, declared here today.

He then quoted statistics printed in A dispatch to THE TRIBUNE from Paris dated Feb. 13 to prove his statement. "We are still sending missionaries to the east." continued Mr. MacWhite 'At the same time we' are fastening the opium evil tighter and tighter on the eastern peoples.

Declares U. S. Was Buncoed. "Lord Cecil declared India will begin to reduce its production of opium when the smuggling of opium from China is stoped, but that is a joke. There has always been opium smuggled from China and always will be. It is impossible to stop it.",

Mr. MacWhite declared Congressman Stephen Porter, who was the leading American delegate to the opium con-ference, never had a chance to carry out the American principles of reduc scientific needs because the league's opium advisory council, which is con trolled by the opium and cocaine pro intries, found a clever way to sidetrack Mr. Porter by calling two

conferences instead of one.

The first conference in November was made up of producing countries only, which was the only suitable conference to consider the limitation of production. Mr. Porter never was admitted to this parley. The second conference, which discussed the sale of narcotics, had no competence in the

"Swiss Free Zone a Menace." 'I consider one of the greatest nar cotic menaces to America is the free customs zone in Basle, Switzerland," Mr. MacWhite explained, "A Japanese Germany with their import certificates, but instead of sending cocaine to Rus-sia they sent it to Basle, where it was entered without formalities. They paid the Basic chemical manufacturers to mix the cocaine with baking soda and under this label the Japanese and Eng-lishman sent the stuff to America, where the cocaine was chemically ex tracted. The exporters made a profit

tracted. The exporters made a pront of 5,000 pericent.

"It is easy for narcotic smugglers to ship cocaine in and out of Basle on account of the free zone and then hide the stuff on barges going down the Rhine to Antwerp."

## True Economy and False Economy

True economy, as we understand it, is the middle ground between paying too much and too little for something that is deemed necessary or desirable for progressive living.

False economy is forfeiting greater values—life values as well as money values—for the sake of unnecessary restrictions on expenditure.

This store appeals strongly to those who wish to observe true economy in the purchase of personal and household requisites.

Although we handle a number of important accounts, some of them started in a small way.

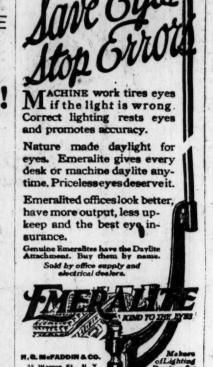

This does not argue that we have any magic that enables us to make small appropriations unseat powerful, long-entrenched competition.

But we desire to emphasize our willingness to work with advertisers who must feel convinced of a thoroughly safe plan of action before making decisive advertising and merchandising moves.

During our experience of more than 20 years we have never found an undertaking too great for our organized facilities, nor any real opportunity too small to receive our sustained interest and service.

#### Burned Evidence By MRS. WILSON WOODROW

The story is being told by young Dandridge, junior member of a New York firm of Old Jerome Fosdick, one of the richest clients of the firm, invites Dandridge to ch at his home. The young lawyer is interested in the old man's granddaughter, Sara tiful young society woman who is Fosdick's sole heir. Fosdick tells Dandridge that sa's father, his only son, had spent many years in South America, where he died. After the death a South American woman appeared at the Fosdick home with baby Sars, whose sether, the nurse said, had died soon after the baby's father. Fosdick had investigated

her, the nurse said, had died soon after the baby's tather. Fossies and the woman's story and found it to be true.

After luncheon Madam Adelbron, a famous psychic, calls on Fosdick and tells him she been an intimate friend of Sara's mother, in Buenos Aires, when Sara was an infant that when she had had to leave the city on a theatrical tour she had left with Sara's ther all her jewels and a large sum of money. When she returned to Buenos Aires rella Fosdick was dead and her property had disappeared. She has just succeeded in leing them, and she demands that Jerome Fosdick return her jewels and the money with erest. A few days later the old man is found dead in his automobile. The case is in the east of Police Inspector Curran. Dandridge tells the impector sebout Madam Adelbron's mands on Fosdick. Dandridge tells Sara Adelbron had called on Heywood Achison, a maintent attorney, and supposes he advised the medium in her demands on Fosdick. This t attorney, and supposes he advised the medium in her demands on Fosdick. This to Achison angers Sara, to whom the attorney is well known.

A PERFECT ALIBI. Inspector Curran and I also clashed on the subject of Achison; for when Le spoke of Adelbron's visits to the lawyer, it brought back to my mind that surreptitious communication between the two in the restaurant on New

"But if she had already met Achison and was going openly to his office." I asked, as I finished repeating the circumstances, "why all this subterfuge and maneuvering?"

There was a deep, skeptical twinkle in the glance Curran shot at me. There was a deep, skepucal twinkle in the glance Curran shot at me.

"If you will excuse me, Mr. Dandridge," he said, "I am inclined to think that bit of hocus-pocus was rather in your eye. Suppose the woman is a client of Achison's? He had a big supper party of important people on, the kind Movie Makes

he plays about with; and he'd hardly bother to notice every odd fish that happens to consult him, and who might be among those present in a public place. And that signal, and the note rolled across the floor." He drew down the corners of his mouth. "Too cheap and tricky for a man of Achison's standing. In all that midnight hullabaloo, he could have sent a slip of paper to her by a slick waiter, and no one any the wiser. No; I don't want to hurt your feelings, young mar. but I'm afraid your eyes were a little crossed."

"All right. We'll let it go at that," I returned. "I admit the force of your reasoning; but I saw."

I expurgated this argument, though, in my report to Sara. I was not soing to increase her scorn of me by buttressing it with Curran's derisive

cavil. Instead, I went on with the account of his activities.

"He has seen the doctor Adelbron called in," I told her. "A first class the basis for this picture, which turns half old, the latest Roosevelt shows true signs of her descent.

That's the latest news of young Miss thes. He saw her for the first time on Saturday a week ago, when she can to his office. She was rather hysterical and complained of headache and nervousness; so he prescribed a mild sedative, and advised her to go home and to to bed. On the following Monday he was sent for to come to her apartment, and found her still complaining of nervous chills and headache, but with very little actually wrong so far as he could determine. He told her to stay in bed and continue the medicine he had given her, and left, promising to visit her again on Tuesday morning."

"The day, poor Grand ——" Sara's mouth contracted; she stopped

"Yes," I assented. "But next morning she telephoned him to say she feeling a little better, and asked him to postpone his call until between bree and four that afternoon

Note that, please," I stressed the point as Curran had stressed it to me; she named the time. And the doctor accordingly made his visit about half-past three. He is certain it was not later than a quarter to four. The maid took him into madam's bedroom. He found her sleeping soundly, and did not waken her, as the maid told him that, although she had passed a restless been entirely dissipated. "Curran thinks now," I quoted him again, "that, although the actual firing of the poison dart must have been assigned to another, Adelbron planned or was cognizant of every detail, and in order to forestall any suspicion that and poverty stricken, living on the top a few hours spent with friends at and poverty stricken, living on the top a few hours spent with friends at might be directed toward her, took these measures of protection."

"How imbedile!" Sara threw up her chin impatiently. "The sleeping Grandfather Amberson in a last deshis wife and daughter at the hospital, roman was not Adelbron of course, but a substitute. That doddering old doctor simply —"
"No." I halted her with a shake of the head. "The inspector would

The rest of the picture is concerned ory of her famous grandfather was overlooked a green and living thing to the that the shades were drawn at the bedroom windows, is positive in his asser tion that it was Madam Adelbron and no one else. As he says, she is not a terson to be easily mistaken, and he had seen her on two previous occasions.

"So that, as Curran puts it," I went on, "is set-back number one. And what he calls set back number two, is that Miss Ray, the operaive he planted as a telephone girl, although she succeeded in searching the apartment, found nothing resembling a weapon. This Gertie Ray, however, is thorough, he says; novel.

into her little dustpan; so she brought in a scrap of something that Curran units has got him guessing.

"It seems, he explained to me, that late on Tuesday afternoon majam ad a bonfire. It wasn't built for warmth; for she is always complaining that the apartment is overheated, and usually has a window or so open. ence is then, that she rose from a sick bed, if she ever was really in it except for the doctor's benefit, and burned something in haste. 'Here's a bit Gertie Ray retrieved from the ashes.' he said. 'What do you make of it?

"But it stumped me as it had him," I told her. "Perhaps you can puzzle out what it is. I got him to lend it to me to show you." Sara drew from the envelope I put in her eager fingers a fragment of Mn. scorched canvas. She turned it over and over, studying it, feeling the

edges, holding it up to the light; and then she got a magnifying glass and pored over it.

"It must have been a portrait done in oils," she said at last. "I can't reconstruct another thing from it."
"Neither could we," I said. "And the Adelbron's reasons for burning a

prirait might be many, and all quite innocent." "Baffling old devil!" Sara muttered; there was a flash of fire in her eyes.

This scrap, as you say, may amount to nothing; but I'm sure I owe grand's death to her. It's a big debt she owes me, and I'm going to collect every hing of it. Some way, I must manage to meet her. Set a woman to catch

These intimations of hers, first of speaking to Achison about Adelbron and Part of matching wits with a woman who had made a science of outwitting and outmatching her opponents, alarmed me.

"Curran, too, is anxious to interview her," I said diplomatically. "You might arrange it with him. But it seems to me you have your work cut out for you right here in this house."

"And woman's place is in the home. You forgot to say that, Mr. Dandridge."

I was unmoved by her sarcasm. The contingency was too serious.

"It certainly is in this instance," I returned. "Curran is deeply interested "So am I," darkly. Then she seemed to catch herself as if she regretted

I lighted a cigaret, and mentally debated how much I should give her of the text of Curran's next remarks. He had fallen silent, as he sat industri-active working on his geometrical designs. Suddenly he pitched his pencil across the desk, and clasped his hands at the back of his head.

"I tell you, Dandridge," he said. "there's someone in the house who's in with the gang that engineered this thing; but I'm thinking we'll have to look higher than the servants. The men I have put in there, one as kitchen helper and one as Pardy's assistant, don't think there's anything doing; and, by the same token, they doubt that either the day or night watchmen would have their high paid, loading jobs when, if anything went wrong, they would taked their high paid, loading jobs when, if anything went wrong, they would take first to be suspected. Eliminate the servants and the watchmen then, is least, until we see more of a line on them. That leaves the curator, the least, until we get more of a line on them. That leaves the curator, the cretary, and the housekeeper. Which would be the object of your suspicions, to you bunch them together?"

"No," I said; "I think I'd center on Herbert."

"You don't like him," he interrupted. "Why?"

BY EDWARD MOORE. It was old home day for the pianists yesterday. The afternoon's circuit of recitals disclosed three within easy distance of each other, one a newcomer of favorable repute from afar, one a debutante, one an artist who has

played here frequently to the keen delight of his hearers. Maria Carreras, at the Playhouse, was the newcomer, of iron gray hair and distinctive bearing both at the key-board and away from it. MARION K .: FIVE FEET SIX ige 23, you should weigh 130 pounds to measure up to the standard table. You can easily add sixteen pounds to your weight. For breakfast eat oat meal with cream, and do not go sparingly on the cream. At noon take a cream soup, a salad with oil dressing. and perhaps ice cream for dessert. For dinner—soup, meat, potatoes with plenty of butter, another vegetable and dessert. You might also drink half milk and half cream for dinner

Dangerous Curves Are Going 'Round Us

All this means there is a decided in-clination in the early spring frocks to start their flare, not at the cautious knee line, but at the reckless hip line. Especially is this manifest in the newer dance frocks. Not only has the period gown, with its short fitted basque topping an inflated skirt, scored more tremendous vogue than ever before, but there seems to be an undeniable impulse toward the long waist that juts out into bouffante contours.
Today's model is eloquent of this present mode of the long corsage linked with the full skirt, a mode, by

the way, that does not sacrifice that sacred molding of the hips. Observe indeed, that the bodice of deep pink taffeta dips down well over the hips. The skirt, a dark rose red of tulle drops a two flounced apron in front and another similar one in the back

What Caused the Explosion. BATTLE-SHIP REPORTED DESTROYED.

The Shock of the Explosion Shook the Whole City, Breaking Windows in Many Houses.

Reprinted from the New York World

N February 16, 1898, the United States awoke to find that the Battleship Maine had been blown up the night before in Havana harbor, with a loss of 21 lives. These casualties were actually, as it turned out, the first of the war with Spain, which ended in victory for the American arms.

Sixteen years before, in 1882, the business of S. W. STRAUS & CO. was established, for the sole purpose of dealing in first mortgage securities on city real estate.

Today, our nationwide experience is summed up in our slogan, which stands impressively-"43 Years Without Loss to Any Investor"-a slogan which we

originated many years ago, and which is as widely imitated as the STRAUS PLAN of investment safeguards is imitated. But this record and this experience, gathered in scores of large cities all over the country, covering 43 years devoted to the investment business and not to any other line of endeavor, is beyond imitation.

The long experience, the ripened judgment, and the expert organization of S. W. STRAUS & CO. are at your disposal as an investor. On request, we will send our current recommendations of sound first mortgage bonds, yielding, on the average, about 6%, and literature explaining the reason for this record. Ask for

The National Mortgage Bank of Denmark, owned and controlled by the Danish Government Forty-five Year 6% Sinking Fund External Gold Bonds Series VI, of 1925

Dated, March 1, 1925.

Due March 1, 1970.

Interest payable September 1 and March 1. Coupon bonds in denominations of \$500 and \$1,000. Redeemable as a whole or in part at 100 and accrued interest at any time. Beginning in 1930 also redeemable for the sinking fund at 100 and accrued interest. Principal and interest payable in New York in gold at the office of Brown Brothers & Co., fiscal agents for the loan, without deduction for any Danish taxes present or future. Sinking fund beginning in 1930 is to retire 1¼% of maximum total of this issue of bonds semi-annually by redemption of bonds at 100 and accrued interest. Sinking fund to retire all bonds of this issue by maturity.

We summarize as follows a letter to us, dated Feb. 13, 1925, signed by Directors of the Mortgage Bank of Denmark Organization The Mortgage Bank of the Kingdom of Denmark was organized by the Danish government in 1906 to regulate the real estate mortgage business in Denmark. The entire Kr. 20,000,000 (\$3,558,000) capital stock of the bank is owned by the Danish government.

Operations The Mortgage Bank acts as a central agency for financing certain types of real estate mortgage loans guaranteed by the Danish government. It also performs a similar function for issues of bonds of Danish real estate mortgage institutions and municipalities. The bank purchases obligations of these types which conform to the strict requirements of the Danish mortgage bank law and in turn issues its own bonds against these obligations. and in turn issues its own bonds against these obligations.

Security These bonds are the direct obligation of the Mortgage Bank of the Kingdom of Denmark and constitute a direct charge on all the assets of the bank. They, together with the other outstanding bonds of the bank, are secured by deposit of at least an equal principal amount of securities, such as real estate mortgages on farm property and obligations of municipalities, both guaranteed by the Danish government; bonds of Danish credit unions issued against first mortgages on real estate outstanding in an amount not exceeding 60% of the conservatively appraised value of the mortgaged property, and bonds of the Danish tithe bank issued against first mortgages on real estate.

Assets As of March 31, 1924, the Mortgage Bank of the Kingdom of Denmark had the following re-Approximate

	of total	
1. Bonds issued or guaranteed by the Kingdom of Denmark, principal amount	67%	
2. Bonds of credit unions and tithe bank, principal amount	32%	
3 Net current assets	1%	
 Total	100%	

Against the Kr. 112,292,939 (\$19,976,914) resources stated above the bank had outstanding, as of March 31, 1924, bonds in the net principal amount of Kr. 84,286,840. This latter amount includes Kr. 27,749,520 bonds, which are payable also in sterling at par of exchange. (See note.)

Credit The exceptionally high credit standing of the Mortgage Bank of the Kingdom of Denmark is indicated by the fact that its bonds sell on the Copenhagen stock exchange on practically the same yield basis as the bonds of the Kingdom of Denmark. The bonds of the mortgage bank are eligible for the investment of trust funds in Denmark.

NOTE: If Kr. 27,749,520 bonds payable also in sterling are converted into dollars on the basis of \$4.78% per pound sterling, the rate of exchange on February 11, 1925, and if the remaining Kr., 56,537,320, are converted into dollars at \$.1779 per Krone, the rate of exchange on February 11, 1925, the net bonded debt of Kr., 84,286,840, is equivalent to \$17,365,922, the rate of exchange on February 11, 1925, the net bonded debt of Kr., 84,286,840 on to appear in the original letter but are Dollar equivalents of Kroner appearing in parenthesis in the above summary do not appear in the original letter but are added for convenience. ent (exclusive of theatre furnishings, provided by lessee)\_\_\_\_ These bonds will be secured, in the opinion of counsel, by a direct, closed First Mortgage upon the land, building and equipment of the Grove Theatre and Office Building, now in course of construction at 7606-7622 Cottage Grove Avenue, Chicago. The land has a frontage of 175 feet on Cottage Grove Avenue, with a depth of 124 feet. The location is in the heart of a District which is fast becoming one of the South Side's most important business centers and the development promises to be similar to that of the Wilson Avenue District.

The above annual income will be derived from the rentals from stores and apartments, conservatively estimated at \$33,600.00, and from the lease of the Theatre, at an actual average annual rental of \$42,333.34 to Messrs. Lubliner & Trinz, who are considered the largest theatre operators in Chicago, owning or controlling 19 leading Chicago motion picture houses, with an organization of 700 employees. They have had remarkable success, and their financial standing is considered unusually strong.

The net estimated income from the building is over twice the maximum annual interest charges on the entire bond issue, which will be reduced annually by serial payments, and the assured average annual income from the Theatre lease, in itself, is more than sufficient to pay annual interest charges on the bond issue.

THE EQUITABLE TRUST COMPANY OF NEW YORK, Trustee

A letter to us from Mr. W. J. Parrick, President of the Company, is summarized by him as follows

History: The business of the Richmond Cedar Works has been in successful operation since 1868. The Company, including subsidiaries, with its extensive timber lands owned in fee (over one billion feet of timber), fleet of barges and tugs, and 30-mile railroad, presents a complete unit for the economical production and sale of wood products. From a small original investment it has grown steadily until today it is the largest manufacturer in the world of woodenware. Its products consist of ice cream packing tubs, ice cream freezers, washing machines, pails, tubs, clothespins, etc. Through subsidiaries it is also the largest manufacturer in the world of red cedar pencil slats, and is the largest producer in the United States of built-up box veneers. The established policy of accumulating virgin timber now assures its lumber mill and woodenware factory of sufficient raw material to run continuously for over thirty years.

Plants: The Richmond Cedar Works' main plant covering 11 acres is located at Richmond, Virginia, where finished articles of woodenware are manufactured for the trade. At Camden, Virginia, near Norfolk, it owns and operates an additional plant for cutting lumber not required in the manufacture of its own products. This plant is located on tidewater and is supplied by the Company's own barges and controlled railroads from its timber holdings in North Carolina and Virginia. Veneers for boxes are manufactured by two subsidiaries, the Wilts Veneer Co., Inc., at Plymouth, N. C., and the National Veneer Co., Inc., at Aden, N. C. At Lebanon and Murfreesboro, Tenn., the Gulf Red Cedar Co., Inc., a subsidiary, manufactures pencil slats. The entire capital stocks of these subsidiaries are owned by the Richmond Cedar Works.

Timber: The Company including its subsidiaries. owns approximately 215,000 acres of timber land in fee simple with an estimated 1,100,- 000,000 feet of merchantable timber standing thereon. This timber is pine (40%), gum (28%), white cedar (19%), cypress (6%), other (7%). The white cedar (juniper) owned by the Company represents over sixty per cent (60%) of the entire stand in this

Security: These bonds are direct obligations of the Richmond Cedar Works secured by a closed first mortgage on over 187,000 acres of timber lands, valued at more than \$9,000,000, and on manufacturing plants at Richmond and Camden appraised in excess of \$1,500,000. In addition the bonds are secured by the pledge of the entire outstanding capital stocks of certain subsidiaries. Timber lands owned by these subsidiary companies are valued at \$1,000,000 and their plants at over \$930,000. No mortgage or lien can be placed on the properties of these subsidiaries except under restrictions of the trust indenture.

Earnings: Net income after maintenance and all taxes, applicable to interest and depreciation for the four and one-half years ended June 30, 1924, averaged \$541,495 or 3.70 times maximum annual interest charges on this issue; ducting depreciation, the average for the same period was \$429,688, or approximately 3 times maximum annual interest charges. The Company has made a profit in every year for over thirty years.

Sinking Fund: A sinking fund provided in the trust indenture is based on the amount of timber cut or removed from the mortgaged property and under certain conditions, on a percentage of the annual net earnings of the Company. Sinking fund moneys are to be used for the retirement of bonds either by purchase or by call by lot under the terms of the mortgage. It is estimated that the sinking fund will retire the entire issue before maturity

First and Refunding Mortgage 5 Per Cent Gold Bonds (Due March 1, 1955)

Price 95½ and Interest, Yielding 5.30%

The Company agrees to pay interest without deduction for any Federal Income Tax up to 2%. These bonds are subject to Authorization by the Indiana Public Service Commission and Michigan Public Utilities Commission, for which applications have been made.

The following information is taken from official sources:

The Company, which is being formed by the consolidation of the present Indiana and Michigan Electric Company and the Twin Branch Power Company, supplies electric light and power to the St. Joseph River Valley in northern Indiana and southwestern Michigan. The Company does the entire central station power and light business in South Bend and Elkhart, Indiana, and ten other communities, and wholesales power in Mishawaka and La Porte, Indiana, and Benton Harbor, St. Joseph and Niles, Michigan.

The bonds will be secured, in the opinion of counsel, by a direct first mortgage on the new Twin Branch power plant and transmission line and a mortgage on the balance of the physical property subject to one closed issue of \$5,959,000 underlying bonds outstanding with the public. Properties to be covered as a first mortgage represent actual expenditures to date in excess of the amount of this issue.

As officially reported for the calendar year 1924, gross earnings were \$3,394,866; net earnings \$1,405,614; or over twice the annual interest charges of \$697,950 on the funded debt, including this issue.

> We recommend these bonds for investment and shall be pleased to send circulars describing the issue in detail.

The following information is contained in a letter addressed to us by His Excellency W. Wroblewski, Minister Plenipotentiary of the Republic of Poland to the United States;

The boundaries of the Republic of Poland were established in 1919 by the Treaty of Versailles and by agreement with adjoining countries. Poland has been a member of the League of Nations since its inception. The record of financial and economic progress in Poland constitutes an outstanding achievement among European nations

2. A balanced budget-in 1924 total Government receipts exceeding total expenditures by \$14,282,000;

4. A Government owned railroad system of 14,000 miles showing in 1924 an excess of receipts over

The Constitution of Poland provides for a President, whose term of office is seven years, and a Senate and Diet. elected by general suffrage. It has an area of 150,000 square miles, and a population in excess of 27,000,000, in which respect it is the fifth largest in continental Europe. The country is primarily agricultural, and is at present the chief producer in Europe of rye, the second in production of potatoes, third in barley and oats, and fourth in beet sugar. The textile industry in Poland is highly developed, as well as the oil, sugar refining, iron and steel, chemical and timber industries. Polish coal production is next in volume to that of Germany and France, and there

The external funded debt of Poland on December 31, 1924, amounted to \$320,380,000 and the internal debt to \$26,441,000, a total of \$346,821,000, or approximately \$13 per capita. Of the above external debt, all but approximately \$50,000,000 consists of debts to foreign governments contracted since the War for reconstruction purposes. Under the Treaty of Versailles, Poland will eventually assume certain obligations, the amount of which is not yet determined, in connection with former German and Austrian territory allotted to her. As against the above debt, Government-owned properties, including railroads, forests, tobacco factories, mineral and oil lands, refineries, salt mines and other assets, were valued on May 1, 1924, at approximately \$1,260,000,000. The Government purposes that the entire proceeds of this loan are to be expended solely for constructive and productive purposes.

These bonds are a direct obligation of the Republic of Poland, and the authorized issue, limited to \$50,000,000 of which \$35,000,000 is to be presently outstanding, is specifically secured by the revenue derived by the Government from the Sugar Tax, amounting in 1924 to \$10,422,000, and by the gross receipts of the Government railroads. Receipts from the Sugar Tax will be deposited as received in the Bank of Poland to be employed in meeting the interest and sinking fund requirements of this issue. The Government covenants that if the annual proceeds of this Tax shall in any year fall below \$10,000,000, other revenues will be added to the amount so deposited to make up that sum. So long as any of the bonds of this issue are outstanding the Government covenants that it will not subject the receipts from the Sugar Tax, or the gross revenues of the railroads, to any charge which is not specifically subordinated to the lien of these bonds.

In point of railroad mileage, Poland is next in importance in continental Europe to Germany and France. The Government system, acquired under treaties concluded after the War, is approximately 14,000 miles in length, and has an estimated value, including rolling stock, in excess of \$800,000,000. The lines are free from mortgage debt, with the exception of liens now outstanding on certain sections amounting to approximately \$10,000,000. In 1924 the total revenue of the railroads was \$159,225,000, of which \$146,680,000 were receipts derived from operations, and the balance from Government and other credits. Operating expenses were \$141,855,000, and the outlay

# Hope to Reach Collins Some Time Today-Fred Upham, Republican Party Leader, Dies

RAIN IMPEDES PROGRESS OF RESCUE WORKERS. Although every precaution has been taken to keep water out of the shaft (note sheets of tin placed over its mouth), rain has slowed the diggers. They hope to reach Collins sometime today.

ARTICLES TAKEN INTO CAVE BY COLLINS RECOVERED. Left to right:

M. Jones, A. Belvins, Simon Jones, Homer Collins, brother of imprisoned man; Albert Marshall, and C. L. Sturgin. Homer is identifying axe and other articles brought from cave as Floyd's.

(Story on page 1.)

DIES IN SOUTH. Death takes Fred Upham, Chicago business man, former treasurer of the G. O. P. national committee, and at present committeeman from Illinois. He died yesterday at Palm Beach, Fla. (Story on page 1.)

CHICAGO GETS A SUBWAY. But it's not very long. It only leads from Michigan avenue at Van Buren street to the Illinois Central railway station.

SOUGHT. Logan F. Pierce, youthful husband, disappears when bride dies.

(Story on page 1.)

PROUD FATHER. Representative Nicholas Longworth of Cincinnati and Washington, D. C., comes to Chicago to see his baby girl. His wife, "Princess Alice," the daughter of the late Theodore Roosevelt, and the baby are "doing well."

(Story on page 21.)

TIRED OF BEING "A GOOD BAD WOMAN." Miss Helen MacKellar, actress, wants to quit New York play because of her distaste for such a role.

ELK BROUGHT TO THE FOREST PRESERVE. Members of the forest preserve board and other county officials yesterday witnessed the arrival from the west of ten elk. They were turned loose in the Elk Grove tract of forest preserve on Higgins road.

BLAMES TEACHER. Grace Eden, 12, of 1634 Clybourn avenue says she got welts at school. (Story on page 16.)

SLAYS SUITOR. Dorothy Perkins, accused of killing Thomas Templeton at party in New York.

UNDER ARREST. Corporal George Bidwell, held for attack on young bride.

(Story on page 13.)

ALSO HELD. Sergt. Charles Ellis, who with Bidwell is stationed at Fort Sheridan, is likewise ac-

OFF FOR CATALINA.
Grover Cleveland Alexander, Cub pitcher, leaves for spring training.

TALKING FROM EXPERIENCE. Eddie Rickenbacker, U. S. flying ace, is shown seated between Representative Randolph Perkins of New Jersey (left) and Representative Florian Lampert of Wisconsin, during quiz on aviation issues.

WINNERS ON THE ICE. At left: Melvin Larson of the Henry playground, who came in first in the class A mile and 440 yard races; right, Donald Carlson of the Austin-Columbia A. A., who was first in the class AA mile race in Norwegian-American skating Derby held at Portage park.
